Fire Safety Tips from your Fire Department

CHRISTMAS TREES

- Get a tree that is fresh and green.
- Christmas trees can be extremely flammable if very dry. **A dry tree will be totally consumed (except for the trunk) in a matter of seconds.**
- Use a tree stand with a broad base for good balance and that has lots of space for water.
- Do not set up the tree within 3 feet of a heat source
- Never use lit candles on your tree.
